

*Your needs,
our commitment*

Clear, tailored insurance advice for life,
family, assets and business.

2026 Company presentation

A broker built around the client

ABLM Insurance simplifies insurance decisions with independent advice and ongoing support.

“We work for you — not the insurers.”

The ABLM insurance promise is to remove complexity: clear explanations, unbiased comparison, and coverage designed around the client’s actual situation.

Four ways ABLM Insurance protects clients

A complete advice cycle: assess, insure, support and advocate.

01

Risk assessment

Evaluate exposures and guide smarter choices.

02

Personal insurance

Home, auto, health and life coverage tailored to lifestyle.

03

Business coverage

Commercial plans for entrepreneurs, SMEs and corporations.

04

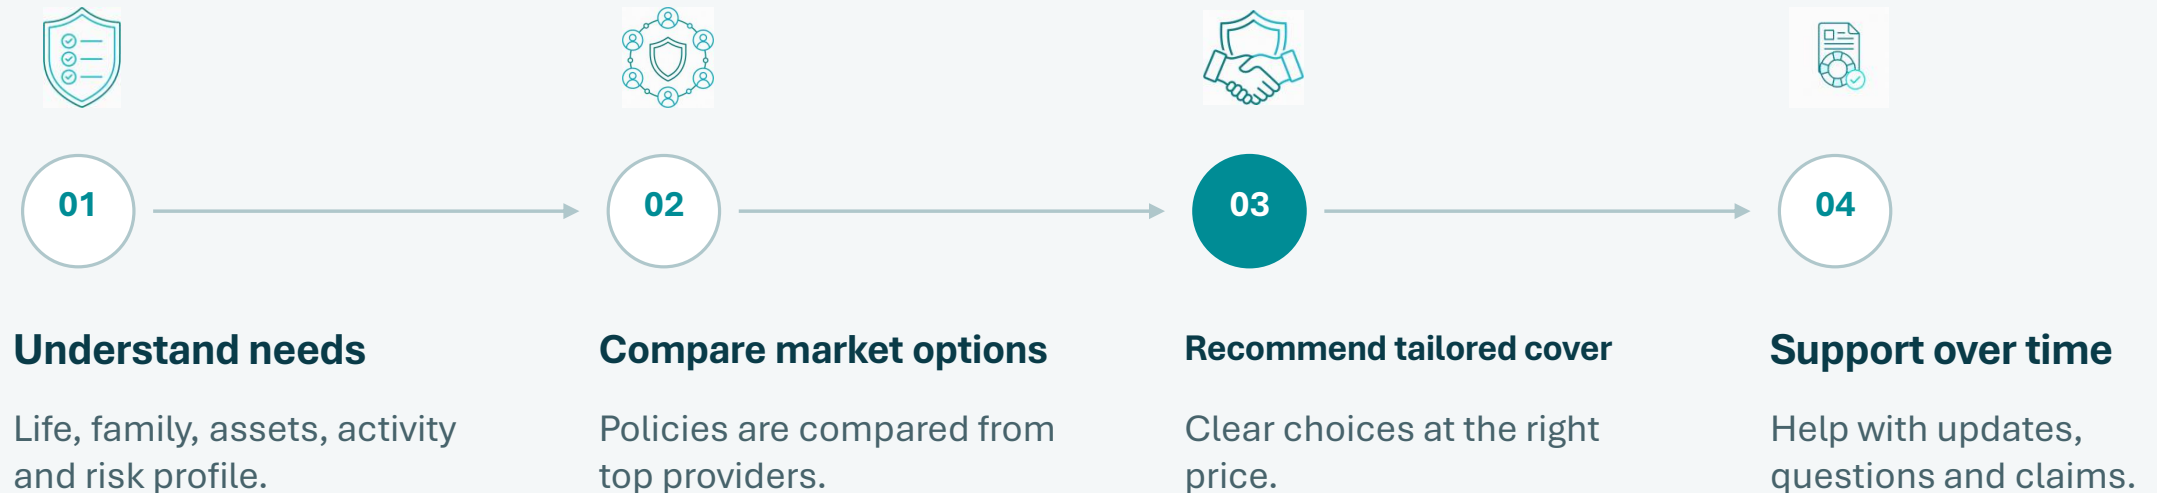

Claims advocacy

Help throughout claims so cases are handled fairly.

All four services start from the same center: the client's real needs.

How independent advice becomes coverage

ABLM Insurance compares options from trusted providers and translates them into practical protection.

Result: clients can make confident decisions without navigating insurance complexity alone.

Personal insurance: protect what matters most

Coverage is tailored to a client's lifestyle — not sold as a one-size-fits-all policy.

From everyday essentials to long-term security, ABLM Insurance helps people navigate choices with plain language and practical guidance.

- Home protection
- Auto coverage
- Health insurance
- Life insurance

Peace of mind for life's moving parts

ABLM Insurance helps clients choose cover that fits their family, home, mobility and health needs.

Business & commercial coverage

Support for entrepreneurs, SMEs and corporations that need protection while they grow.

Entrepreneurs

SMEs

Corporations

Commercial coverage can include liability, property and professional indemnity — configured around the scale and risk profile of the organization.

- Custom commercial plans
- Risk guidance before policies
- Protection that lets leaders focus on growth

Claims support when it matters most

ABLM Insurance stays beside clients through the claims process — aiming for fair, fast handling with less stress.

Report

A claim or question arises.

Guide

ABLM Insurance explains the next steps.

Advocate

The case is followed up fairly.

Resolve

Clients regain focus with less stress.

The difference is advocacy: a broker who helps clients navigate the process, not just buy a policy.

The ABLM Insurance client experience

Professional insurance advice with a human, family-driven approach.

Independent

Advice is centered on client needs rather than insurer priorities.

Unbiased

Options are compared so coverage and price make sense.

Practical

No jargon, no pressure — just clear guidance.

Personal

Support continues after policy selection and during claims.

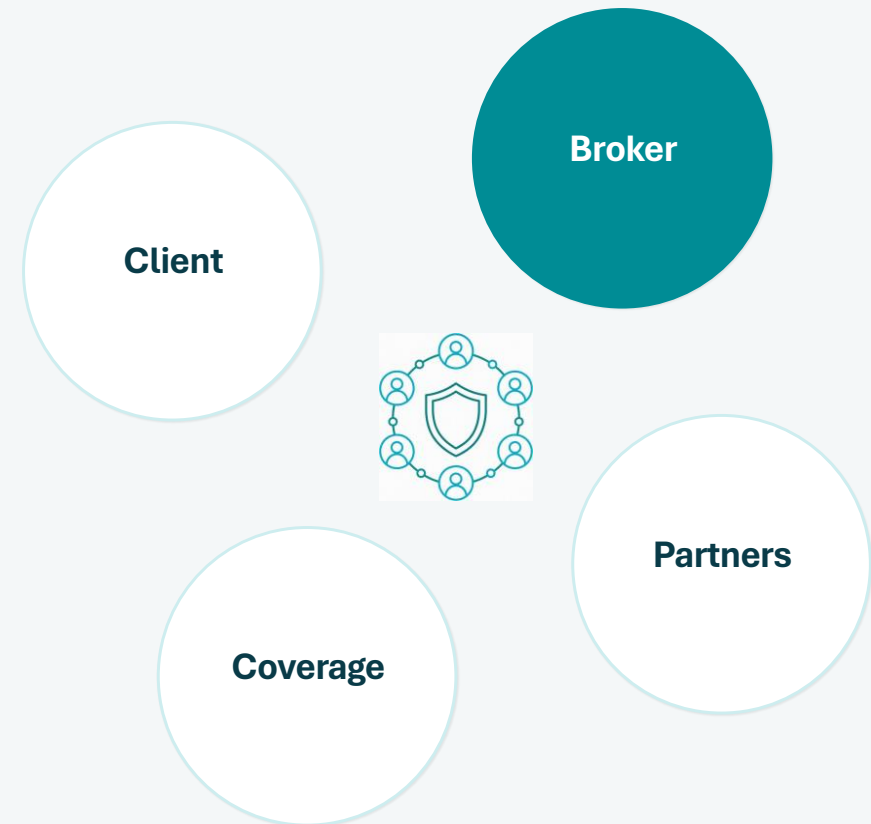

Trusted partners, tailored results

ABLM Insurance collaborates with strategic partners to deliver quality solutions and lasting value.

Partner network

ABLM Insurance's role is to connect clients with relevant insurance options, then make those options understandable and actionable.

Independent comparison makes coverage easier to understand — and easier to act on.

Ready to talk about your insurance needs?

Thinking about getting insurance or just need advice? ABLM Insurance invites clients to drop a message — the team is happy to help.
